

In the Specification:

Please amend the specification as indicated.

Please replace the second full paragraph on page 13 with the following paragraph:

FI
--Figure 13 also shows a finished module which has rectangular panels 91 connected to the ends of support ties 93 with nuts 94 screwed onto the ends of the ties 93 to fix the panels in position in a vertical orientation on either side of the inside frame 95. As shown the spacers 96 separate the panels 91 from reinforcement 92.--
